

## When I am in a Crowd

I may be part of a large crowd of people. I may choose to be part of the crowd or I may be in a place where a crowd forms. Being in a large crowd of people can be dangerous and overwhelming.

If I find myself in a crowd, I can do some things to keep myself calm and safe:

- I can wear a mask to help stop the spread of germs.
- I can stay on the outside edge of the crowd so that I can easily leave.
- I can leave if I see people fighting, breaking laws (such as stealing) or destroying property (such as breaking windows, starting fires, )

Sometimes people get in trouble with the police when they are part of a large crowd.

There are some things I can do to avoid getting in trouble as part of a large crowd:

I can follow the police orders.

I can follow the curfew

I can go home before dark.
