

# 5 DAY TEACCH TRAINING WORKSHOP HOSTED BY TRAINERS FROM NORTH CAROLINA

## ABOUT THE TRAINING:

This five-day course provides a theoretical foundation as well as hands-on opportunities to assess and teach school-aged children on the autism spectrum in a demonstration classroom setting. The premise of this foundation is an understanding of the learning styles of individuals with autism and how to use teaching strategies that capitalize on learning strengths.

## When & Where?

September 23rd through to September  
27th 2024

Melton Specialist School

159-211 Coburns Rd, Melton 3337

Cost for this workshop will be a total of  
\$3750.00AU plus GST

The cost of this workshop can be a split  
payment over this financial year & the  
2024 \ 2025 financial year for your  
convenience.

## Objectives:

Understand the unique learning styles of children and adolescents on the autism spectrum.

- Conduct informal assessments to set learning objectives and monitor progress.
- Create meaningful and individualized visual structure for students with autism in both individual and group settings.
- Implement TEACCHing strategies to facilitate communication, academic skills, social and leisure skills, work behaviors, and vocational skills.
- Engage in behavioral problem-solving and implement antecedent-based strategies to reduce behavioral difficulties.
- Develop and implement stress reduction routines and coping strategies.
- Implement strategies for working and collaborating with families of individuals on the autism spectrum.

## Target Audience:

This course is designed for educators, psychologists, speech language pathologists, as well as others interested in educational strategies for teaching elementary through high school-aged children with autism.

## Presenters:

Training staff will include TEACCH Autism Specialists who provide intervention services to individuals on the autism spectrum in North Carolina, USA as well as training and consultation to professionals worldwide. Training staff will also include TEACCH Certified Advanced Consultants, who are autism professionals in Australia
